

CURRICULUM VITAE

NAME

Jennifer (Jenny) Evans Bennett

ADDRESS

Colorado State University
CoBank Center for Agricultural Education
County Road 56
Fort Collins, Co 80524

CV SECTION 1: Employment History/Awards

EDUCATION

2025 Ph.D. Career and Technical Education, Utah State University, Logan, Utah
2020 Master of Agriculture in Agricultural Education, Colorado State University, Fort Collins, CO
2017 Completion of Teacher Licensure Program; Secondary CTE Agriculture, Food, and Natural Resources
Colorado State University, Fort Collins, CO
2017 Bachelor of Science, Animal Science and Agricultural Education, Colorado State University, Fort Collins,
CO

ACADEMIC POSITIONS

2025- Present Assistant Professor of Agricultural Education, Department of Agricultural and
Resource Economics, Colorado State University
2020-2025 Agricultural Literacy Instructor in Agricultural Education, Department of Agricultural and
Resource Economics, Colorado State University

OTHER POSITIONS

2025- Present CAM's Agriculture Academy, Program Lead
2020-2025 CAM's Agriculture Academy: On the Road Ag Literacy Programming, Program Coordinator
2017-2018 Agricultural Education Instructor/ FFA Advisor, Prairie School, New Raymer, CO

HONORS AND AWARDS

2023 Outstanding Emerging Community Engagement Scholarship Award, Colorado State University, College
of Agricultural Sciences, Fort Collins, CO
2022 Award of Excellence, Program/event/exhibit designed to educate consumers/fair-going public on the Story of Food,
International Association of Fairs and Expos, International
2022 Best Agriculture Display National Western Stock Show, National Western Stock Show, Denver
2020 College of Agricultural Sciences Graduate Student Teaching Award, Colorado State University, Fort Collins,
CO
2019 Y-Cross Assistantship Recipient, Colorado State University, Fort Collins, CO
2018 Honorary Chapter Member, New Raymer FFA

CV SECTION 2: Publications/Scholarly Record

My research agenda revolves around agricultural literacy, agricultural education, and agricultural student success. In my current research position, I strive to demonstrate my ability to maintain a robust research program through various scholarly activities. The interconnectedness of my research endeavors, pedagogical pursuits, and community engagement initiatives is an integral part of my approach to my scholarship.

COLLABORATIVE, INTERCOLLEGIATE & INTERDISCIPLINARY SCHOLARSHIP

Enhancing Student Engagement and Professional Development through Podcasting and Case-Based Learning, in progress his study examines the impact of targeted pedagogical interventions—including student-led podcasting, case-study analysis, participation in a business case competition, and structured mentorship—on undergraduate student engagement in an agribusiness entrepreneurship course at Colorado State University (AREC 224). The project seeks to understand whether and how these active learning strategies foster deeper student engagement and professional development.

I contributed to this project through instrument development, Institutional Review Board (IRB) protocol development,

survey administration, and data analysis.

DARE Recruitment Team Member and DARE Connect Developer, 2022-2024

As a dedicated member of the DARE recruitment team at Colorado State University, I actively promote the Department of Agriculture and Resource Economics (DARE) to prospective students and contribute to student retention efforts. A notable achievement of mine is co-developing DARE Connect, an innovative program that facilitates connections between Agricultural Business, Economics, and Food Systems professionals and local secondary agricultural education instructors. Through DARE Connect, we have created curriculum materials and instructional videos to address challenging topics within the Ag Business pathway. This initiative aims to strengthen relationships with rural students and teachers, enhance recruitment efforts from rural areas in Colorado, and provide valuable support to local educators. I played a vital role in conceptualizing and organizing DARE Connect, collaborating with Team Ag Ed members to explore opportunities for collaboration between DARE and Colorado Agricultural Education Teachers.

W3006/W4006 Multistate Agricultural Literacy Research Project (USDA-NIFA funded), 2021–present

In this role, I actively contributed to a USDA-NIFA–funded multistate research initiative focused on advancing agricultural literacy scholarship. As a member of the W3006 research team, I collaborated with researchers nationwide to collect, analyze, and interpret agricultural literacy data, contributing to shared research products and national conversations around agricultural literacy programming. I also served as Secretary for W3006, supporting effective communication, documentation, and coordination across the multistate group. Beginning in 2024, I continued this work as a research member of W4006, building upon prior findings and aligning my contributions with my dissertation and broader research agenda.

National Center for Agricultural Literacy (NCAL) Growing a Nation Curriculum Update and C3 Framework Alignment, 2022

In spring 2022, I actively contributed to the National Center for Agricultural Literacy (NCAL) at Utah State University, focusing on the Growing a Nation curriculum. This curriculum, available on growinganation.org, presents American history through an agricultural lens. To enhance its educational value, I conducted a comprehensive review and alignment of the curriculum to the C3 Framework. The C3 Framework enhances social studies rigor, fosters critical thinking and problem-solving skills, and aligns with Common Core State Standards. I meticulously assessed content relevancy, accuracy, and accessibility, aligning pertinent lessons accordingly. I presented the proposed changes to the NCAL team, which were implemented in the summer of 2022, contributing to an improved curriculum and deepening my expertise in curriculum development and alignment.

Agricultural Literacy Certification Program (ALCP) at Utah State University, 2021

In fall 2021, I participated in the Agricultural Literacy Certification Program (ALCP) at Utah State University. Developed with funding from USDA-NIFA, the ALCP addresses the need for enhanced agricultural education in Agriculture in the Classroom programs, extension programs, and community-driven initiatives. The program equips educators with online learning modules and a certification process to deliver accurate, science-based, and socioscience-sensitive agricultural knowledge. As a member of the Delphi expert panel, I played a crucial role in shaping the program's content priorities and key concepts. This involvement deepened my understanding of agricultural literacy while actively contributing to its educational advancement.

KEY Communities Ag Cluster Instructor, Colorado State University (CSU), 2020-2021

During my time at Colorado State University (CSU), I served as the KEY Communities Ag Cluster Instructor, working closely with the CAS Dean's Office and CSU KEY Communities organization. I played a pivotal role in developing and facilitating AGRI 100, which became a KEY community course. KEY Communities are vibrant learning communities at CSU, catering to a diverse group, including students of color and first-generation college students. I participated in training sessions and seminars to align with the KEY Communities' structure and philosophies. AGRI 100, a 1-credit experience-based course, served as the Cluster seminar for the KEY Ag Cluster. In addition to course development and facilitation, I provided training and guidance to the KEY Ag Cluster student mentor, who served as a peer mentor and teaching assistant. As the KEY mentor instructor, I fostered a supportive and inclusive learning environment, playing a crucial role in the academic and personal growth of the KEY Ag Cluster students. My involvement as a KEY Communities Ag Cluster Instructor reflects my dedication to student success and cultivating a sense of community in higher education.

COURSE DESCRIPTIONS

AGED 525 Methods of Teaching in Agricultural Education and Extension

This course explores research-based strategies for designing, facilitating, and evaluating learning in agricultural education and extension contexts. Students connect theory to practice through case studies, lesson design, and applied projects, often working with real stakeholders to strengthen instructional decision-making and teaching effectiveness.

AGED 330 Program Design and Evaluation in Agricultural Literacy

This course prepares agricultural literacy students to design, implement, and evaluate high-quality educational programs. Students develop skills in identifying target audiences, writing learning objectives, selecting instructional strategies, and creating engaging, interactive curriculum materials. Emphasis is placed on evaluation methods and data-driven decision-making to improve program impact. By the end of the course, students are equipped to design and deliver meaningful agricultural literacy programs for diverse audiences.

AGED 486 B On-site Experience in Agricultural Outreach (Fall & Spring)

This hands-on practicum provides students with immersive experience developing and facilitating agricultural outreach and literacy programming at the National Western Stock Show. Students create curriculum and activities, engage directly with the public, and serve as knowledgeable ambassadors for agriculture and the College of Agricultural Sciences. Course experiences contribute to CAM's Ag Academy and Agriculture Adventure programming and emphasize communication, professionalism, and effective public engagement.

AGED 486 A Practicum in Agricultural Literacy

This practicum offers agricultural literacy students supervised, hands-on experience in real-world educational and outreach settings. Students apply content knowledge and instructional skills while supporting agricultural literacy initiatives, gaining practical experience that strengthens their professional preparation and impact in the field.

AGRI 192 (181) Orientation to Agricultural Systems

This course introduces students to the complexity and diversity of agricultural systems while fostering a sense of belonging within the College of Agricultural Sciences. Through field experiences, reflection, and small-group discussion, students build foundational agricultural literacy and develop meaningful connections to agriculture, natural resources, and the broader industry.

AGED 430 Methods of Agricultural Literacy

This course focuses on the design, facilitation, and evaluation of non-formal agricultural and natural resources education. Students create engaging educational experiences for settings such as fairs, exhibitions, and community programs, while developing skills in instructional delivery, audience engagement, and program evaluation. Emphasis is placed on reflective practice and measuring learning outcomes to ensure meaningful impact.

DIRECTED STUDENT LEARNING/ MENTORING/ADVISING

Since 2019, I have served as a graduate advisor, committee member, and honors thesis advisor for undergraduate and graduate students, while also supervising independent studies and college teaching experiences across agricultural education and related disciplines.

Graduate Advising & Committees

- Graduate committee advisor or co-advisor: Brooke Carlson (graduated 2025); Tess Clyncke (anticipated graduation, 2026)
- Graduate committee member: Jay Whaley (anticipated graduation 2027); Katharine Eshelman (anticipated graduation 2027); Sarah Appel (graduated 2022)

Honors Thesis Advising & Committees

- Honors Thesis advisor: Malei Tipton (2023)
- Honors Thesis committee member: Korbyn Wilbur (2024)

GUEST TEACHING

Fall 2019- present	AGED 220: Understanding Agricultural Education; lecture- "Exploration of Agricultural Literacy"
Summer 2023	College of Agricultural Sciences, Summer Ag Institute "Agriculture and You"

CV SECTION 4: Evidence of Outreach/Service/Engagement

In Program At Colorado State University, I served as a search committee member for the CAM's Agriculture Academy SPUR Laboratory Manager and Instructor roles in Spring 2023. Additionally, I lead the Agriculture Academy's "On the Road" Ag Literacy Outreach program. This initiative promotes agricultural education and literacy throughout Colorado via place-based educational initiatives, including the well-received Ag Adventure at the National Western Stock Show, CAM's Ag Academy at the Mesa County Fair, and the Colorado State Fair. Since January 2020, we have reached over 47,000 individuals with agricultural literacy programming, successfully cultivating 2,800 Junior Ag Ambassadors. Our efforts have forged more than 30 partnerships, guided 45 youths into leadership roles, and collaborated with outreach organizations such as Sci on the Fly and

the Bug Zoo. Supported by dedicated volunteers from CSU's College of Agricultural Sciences, we strive to provide meaningful agricultural experiences for all school-aged students in Colorado.

Department Level I have been actively involved in the recruitment committee for the Department of Agricultural and Resource Economics since Fall 2022.

College Level I have participated in various committees and planning groups, including the CARIE Director for SPUR Center Search Committee, the College of Agricultural Sciences CORE Curriculum Strategic Plan Committee, the Agricultural Literacy Strategic Plan Committee, and the National Western Stock Show Ag Adventure Planning Committee. Additionally, since Spring 2024, I have served as a faculty advisor for Sigma Alpha, a professional agricultural sorority. In this role, I attend regular meetings, oversee chapter activities, and provide guidance to support members' professional development within agriculture. I also engage in recruitment and ceremonial events to foster community and collaboration among the members as they pursue their goals in the agricultural field. I have contributed to the planning committees for CSU Ag Day 2024 and the State Fair 2024.

Beyond the University I have been a member of the Colorado Foundation for Agriculture Advisory Board since Fall 2021 and actively participate in the W4006 Multistate Agricultural Literacy group, contributing to the development of the W4006 proposal.

COMMITTEES

- Colorado State University Outreach–Extend Committee, Spring 2024–present
- CAM's Agriculture Academy SPUR Laboratory Manager Search Committee, Colorado State University, Spring 2023
- CAM's Agriculture Academy SPUR Instructor Search Committee, Colorado State University, Spring 2023
- Department of Agricultural and Resource Economics Recruitment Committee, Colorado State University, Fall 2022–present
- Metro Agricultural Research Center Manager Search Committee, Colorado State University, Spring–Fall 2022
- SPUR Center CARIE Director Search Committee, Colorado State University, Spring 2021
- Colorado Agriculture in the Classroom Outreach and Communications Committee, Spring 2021–present
- College of Agricultural Sciences CORE Curriculum Strategic Planning Committee, Colorado State University, Spring 2021

PROFESSIONAL AFFILIATIONS

- North American Colleges and Teachers of Agriculture (NACTA), member, Spring 2021–present
- Association for Career and Technical Education (ACTE), member, Spring 2021–present
- American Association for Agricultural Education (AAAE), member, Fall 2020–present
 - Western Region Professional Development Committee
- Colorado Vocational Agriculture Teachers Association (CVATA), member, 2017–present
- Colorado Agriculture in the Classroom, Advisory Board Member, 2020- present
- W3006/W4006: Multistate Agricultural Literacy Research Group, 2021- present
 - Secretary, 2021-2023

SERVICE

- Sigma Alpha, Nu Chapter, Faculty Advisor, Spring 2024- present
- Journal of Agricultural Education article reviewer, 2024- present
- American Association for Agricultural Education poster reviewer- National Conference, Spring 2023, Spring 2025
- Colorado FFA State CDE and LDE event assistant, 2019-present

OUTREACH/ENGAGEMENT

CSU Ag Adventure at the National Western Stock Show (2020-present) Ag Adventure is a 16-day agricultural literacy outreach collaboration between Colorado State University (CSU), the National Western Stock Show (NWSS), and Colorado commodity organizations, hosted annually during the National Western Stock Show. The interactive exhibit engages diverse audiences in the story of food and agriculture in Colorado. Served as CSU Program Lead (co-led with the National Western Stock Show), with responsibilities including program design, facilitation, and evaluation; recruitment, training, and supervision of staff and volunteers; budget management; development and coordination of educational activities; and oversight of program promotion and travel logistics.

- Key Activities
 - CAM's Classroom: 5–20-minute micro agricultural lessons
 - Event-integrated scavenger hunt/activities
 - Junior Ag Ambassador program: a badging program to motivate and incentivize participants.
 - CSU Student & FFA/ 4-H Youth training: Platform for youth and CSU students to immerse themselves in experiential communication, advocacy, and teacher training.
- Documented Engagement Reach
 - 70,562 total participants
- Documented FFA and 4-H Trained to Teach Others about Agriculture in the Program
 - 68 total
- CSU Student Program Educators
 - 45, annually.
- Junior Ag Ambassador Badging Recipients
 - 7,621 total
- Documented number of Programming Partnerships
 - 3 internal, annually (CSU Office of Engagement and Extension, CSU Bug Zoo, CVBMS Sci on the Fly)
 - 23 external, annually (such as Colorado Beef, National Resource Conservation Service, Denver County 4-H, Colorado Ag in the Classroom)

CAM's Ag Academy: On the Road at Colorado County Fairs (2020-present); High impact “pop-up” educational programming designed to meet unique community settings to provide agricultural education opportunities that build youth and adult agricultural literacy. Also serves as a platform to train youth in agriculture in agricultural education and related careers using experiential learning. My role in this program includes being the program lead, responsible for program development, facilitation, and evaluation; overseeing staff and volunteer recruitment and training; managing program budget; designing and managing educational activities; coordinating program promotion and travel logistics; and serving as partnership coordinator.

- Key activities
 - CAM's Classroom: 5–20-minute micro agricultural lessons
 - Event-integrated scavenger hunt/activities
 - Junior Ag Ambassador program: a badging program to motivate and incentivize participants.
 - CSU Student & FFA/ 4-H Youth training: Platform for youth and CSU students to immerse themselves in experiential communication, advocacy, and teacher training.
- Program reach
 - 11 counties across Colorado
- Documented engagement reach
 - 10,444 participants, total
- Documented Youth Engagement in Leadership Roles
 - 185 total
- CSU Students Serving as Program Educators.
 - 8-12 annually
- Documented Number of Programming Partnerships
 - 15 Internal, annually (such as Office of Engagement and Extension, CVMBS Sci on the Fly, CSU Bug Zoo)

- 20 External, annually (such as Colorado Ag in the Classroom, Moffat County 4-H, Weld County 4-H, Gunnison County 4-H)

CAM's Classroom at the Colorado State Fair (2020-present); Agricultural literacy outreach programming brings the ag class to the Colorado State Fair. CAM's Classroom hosts micro agriculture lessons using innovative inquiry and hands-on learning pedagogies taught by CAM's Ag Academy faculty and student staff. My role in this program includes operating as the program lead, responsible for program development, facilitation, and evaluation; overseeing staff and volunteer recruitment and training; managing program budget; designing and managing educational activities; coordinating program promotion and travel logistics; and serving as partnership coordinator.

- Key Activities
 - CAM's Classroom: 5–20-minute micro agricultural lessons
 - CSU Student & FFA/ 4-H Youth training: Platform for youth and CSU students to immerse themselves in experiential communication, advocacy, and teacher training
- Documented Engagement Reach
 - 6,085 total participants
- Documented Youth Engagement in Leadership Roles
 - 28, annually
- CSU Students Serving as Program Educators
 - 6-8 annually
- Documented Number of Programming Partnerships
 - 2-3, annually

CAM's Ag Academy Problem-Based Learning Curriculum and CSU Spur Morgridge Lab (2022-present); The CAM's problem-based learning curriculum is designed to engage high school students with critical agricultural issues and equip them to address these challenges. The CSU Spur Morgridge lab is the CSU Spur home of CAM's Ag Academy to provide agricultural education opportunities in Denver. My role in this program includes operating as the PBL curriculum assistant, educational facilitator, program evaluator

- Documented Engagement Reach
 - Problem-Based Learning Curriculum
 - 300 students annually across PBL curriculum offerings (2023-2024)
 - 1,500 Morgridge Learning Lab annual participants (2023-2024)

Colorado FFA Teach Ag Leadership Development Event (LDE) Contest (2023-present); Co-Superintendent, responsible for developing contest materials, coordinating with contest partners, organizing student submissions, recruiting and training judges, and managing coordination for the teaching portion of the contest.

Tagged to Teach Ag, Agricultural Education, Colorado State University (2019-present); Assist in hosting the "One for the Future" Luncheon at the FFA State Convention, coordinate and facilitate training sessions during FFA Week, develop and deliver gifts and promotional items for the FFA and Colorado State University Agricultural Education program, and organize recruitment and outreach efforts to tagged students while maintaining contact throughout the school year.

Colorado FFA State Career Development Events (CDE) Contest (2019-present); Event assistant, responsible for developing and delivering program materials, assisting with scoring and coordination, and organizing the "Lock-In on the Quad" activity for FFA members.

- Events
 - 12 contests such as veterinary sciences, Agricultural sales, Livestock Judging
- Documented Engagement Reach
 - 1,750 FFA member contestants, annually

CV SECTION 4: GRANTS, CONTRACTS & SECURED FUNDING

Ag Adventure at the National Western Stock Show (2024, 2025) | Developed a funding proposal for the College of Agricultural Sciences to support Ag Adventure at the 2024 National Western Stock Show. This event engages over 35,000 attendees with educational programming about Colorado's food systems. The requested funding would cover costs for program development, student staffing, transportation, and other essential resources. **Awarded \$20,000.00**

Colorado State University Summer Extension Internship Program (2024) | Coordinated with Extension partner in Moffat County to secure funding for a graduate summer intern to support the delivery of CAM's Ag Academy: On the Road agricultural literacy outreach work in Craig, Colorado, with the Boys and Girls Club, as well as at their county fair with Moffat County FFA, and local 4-H clubs. **Awarded \$7,000.00**

Teach Ag Leadership Development Contest, Colorado FFA (2023-2024) | Collaborated with the Colorado Agriculture in the Classroom organization to support the Teach Ag Leadership Development Contest sponsorship. This contest provides agricultural education students and FFA members with a valuable opportunity to explore agricultural education careers, broadly defined as classroom teaching, extension work, and community outreach. By participating, students gain insight into the various pathways and roles involved in "teaching ag," helping to cultivate the next generation of agricultural educators and leaders. **Awarded \$1,000.00 (\$500.00 per year)**

Colorado State University Summer Extension Internship Program (2024) | Coordinated with Extension partner in Larimer County to secure funding for an undergraduate summer intern to support the delivery of CAM's Ag Academy: On the Road agricultural literacy outreach work in the Fort Collins/ Loveland area, Colorado, with Larimer County 4-H and the Larimer County Fair. **Awarded \$5,000.00**

Colorado State University Summer Extension Internship Program (2023) | Coordinated with Extension partners in Moffat County, El Paso County, and Rio Blanco County to secure funding for 4 undergraduate summer interns to support the delivery of CAM's Ag Academy: On the Road agricultural literacy outreach work in Craig, Calhan, and Meeker, Colorado. **Awarded \$20,000.00 (\$5,000.00 per internship)**
